

# MK COACH PRE-DELIVERY INSPECTION

## Pre-Delivery Inspection Quality Review

Only after a thorough pre-delivery inspection and road test are completed to our satisfaction does MK Coach release a vehicle to its dealers. A sample of our intensive 3Fs (fit, finish, function) quality inspection includes:

Exterior/Paint	Interior	Underbody/Under Hood	OEM and Accessories
Front sheet metal	Seats	Tires and Wheels	Electrical exterior features
Doors	Door Panels	Front Suspension	Electrical interior features
Center Panel/Door	Seat Belts	Rear Suspension	HVAC system
Quarter Panels	Headliner	Fluid Levels/Leaks	OEM manuals/warranty
Trunk/Load Door	Moldings	HVAC/Heater Lines	information
Pillars	Carpets/Floor Mats	Electrical	
Moldings	Sail Panels	Exhaust System	
Glass	Trunk/Rear Trim	Sealings/Undercoating	
Roof	Consoles	Rear Suspension	
	Center Partition		
	Center Pillars		

In the unlikely event of a repeatable concern, our continuous improvement process is reviewed to determine the root-cause. We then alter our conversion process to address the issue.
